github.com/Jeevitha-reactdeveloper

Tiruppur, Tamil Nadu | Open to Remote Opportunities

OBJECTIVE

Motivated and self-taught Frontend Developer with strong knowledge in React, JavaScript, HTML, CSS, and Git. Passionate about building responsive and user-friendly web applications. Eager to restart my professional journey after a personal career break, with hands-on project experience and a commitment to continuous learning.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

- Tools: Git, GitHub, VS Code, Chrome DevTools

- Version Control: Git & GitHub

- Deployment: Netlify, Vercel

- Other: Familiarity with basic CRUD operations and UI component libraries

PROJECTS

1. To-Do List App

Built a dynamic to-do app with React. Implemented features such as adding, editing, and deleting tasks using state management.

GitHub: https://github.com/Jeevitha-reactdeveloper

2. Simple Social Media App (CRUD Operations)

Developed a basic social media-style application with Create, Read, Update, and Delete functionality using React Hooks.

GitHub: https://github.com/Jeevitha-reactdeveloper

3. Portfolio Website (In Progress)

Currently building a responsive personal portfolio to showcase projects, resume, and contact details using

JEEVITHA.N

Frontend Developer

React and CSS.

CAREER BREAK EXPLANATION

Graduated in 2021, but could not start a career immediately due to family responsibilities. My father's health issues and early marriage required full-time care for my child. Despite this, I used my time to learn web development through online resources, build projects, and prepare for a professional return. Now, I am fully available and committed to remote opportunities.

PREFERRED WORK STYLE

Open to remote internships or full-time roles.

Looking for collaborative and learning-focused environments.
